1. Introduction

The Tshwane Automotive Special Economic Zone (TASEZ) is Africa's first automotive city, an industrial hub that provides investors with a wide range of offerings to help their business flourish.

We are a Special Economic Zone (SEZ) that is focused on growing South Africa's automotive manufacturing industry. This means we are ready to provide a number of financial and infrastructure incentives to make doing business that much easier. SEZs were set up to accelerate South Africa's industrial development by helping promote industrial agglomeration, build the required industrial infrastructure, promote coordinated planning among key government agencies and the private sector, and guide the deployment of other necessary development tools.

Our mandate is to transform the sector, acting as a catalyst for employment, boosting the country's economic growth, and enabling socio-economic development. TASEZ is well placed to do just that, providing a much-desired location close to an already established automotive industrial complex. The hub provides world-class customised solutions, incentives, support services and systems for manufacturers seeking excellence.

Our partners come from all three tiers of government, the Department of Trade, Industry and Competition provides financial support for investor-related infrastructure through its SEZ Fund, while the Gauteng Department of Economic Development and the City of Tshwane provide financial support and the resources necessary to manage and implement the SEZ.

This Request for Proposals (RFP) is for the appointment of a service provider for **the Provision of Private Cloud Hosting Services, Infrastructure, and Software Licences to Tshwane Automotive Special Economic Zone (TASEZ) for a Period of Three (3) Years.**
